Setup Configuration Client IMAP E-Mail

Lösung (öffentlich)

To set up an email program, you can use the general configuration data below. Otherwise, please follow the specific [1]setup instructions, for which you will find a feature overview below.

Note on e-mail addresses:

These usually take the form "firstname.lastname@[mailbox.]tu-dresden.de." You can find your primary email address in your [2]profile on the Self-Service Portal under "E-mail" as your "Primary email address." General configuration for POP3/IMAP Email retrieval via POP3 (incoming mail server)

Protocol

Mozilla Thunderbird [17]Linux, macOS, Windows - ✓ [18]EWS, [19]IMAP

Mozilla Thunderbird / K-9 Mail [20]Android - - [21]IMAP

Remote wipe The remote wipe feature is enabled in the Exchange service operated by TUD Dresden University of Technology. This allows the service administration or the relevant department to securely and remotely delete all data from the affected device in the event of loss, theft, or compromise, thereby restoring it to its factory settings. When setting up an Exchange account on mobile devices, you must consent to the activation of the remote wipe functionality.
