ChromeOS Eduroam

Lösung (öffentlich)

Hint:
If the setup of Eduroam is not successful, please 'Change' your WLAN password at: https://selfservice.tu-dresden.de/passwords/ then wait 15 minutes and start again.

Please note that the username in these instructions must always be entered in the following format: yourZIHLogin@tu-dresden.de

- Download the "installation programme" from this page, preferably with the Chrome browser.
 On the TU Dresden campus: If you do not have a WiFi connection, use the VPN/WEB network for the download.

Screenshot installer download
- Open this page in Chrome and scroll to the "Import ONC file":

chrome://network/#general

Screenshot ChromeOS network settings
- Now select the .onc file and click "open.."

Screenshot file selection
- As you scroll down, you will see the message "Networks imported: 1".

Screenshot successful import
- Open the "short settings" at the bottom right and click on the small arrow next to the WLAN icon.

Screenshot quick menu
- Click on "eduroam".

Screenshot Wi-Fi selection
- Enter your username in the form of "ZIH-Login@tu-dresden.de" and your password in this dialog. Afterwards, click on "Connect".

Screenshot enter login data
- You should be connected to eduroam.
