Adobe signature certificate acrobat reader user certificate

Lösung (öffentlich)

Before you can use digital signatures, you must have Adobe configured and your certificate included.

Security settings for digital signature with TCS-Geant/Sectigo certificates:
[1]<https://tickets.tu-dresden.de/otrs/public.pl?Action=PublicFAQZoom;ItemID=946>

Install personal certificate in Adobe:
[2]<https://tickets.tu-dresden.de/otrs/public.pl?Action=PublicFAQZoom;ItemID=948>

- Open the document you want to sign in Adobe. Then click "Tools" in the upper left corner.
Opened document
- Select "Use a certificate".
Tool overview
- Now select "Digitally sign" from the toolbar.
Digital signature selection
- Drag a rectangle at the point where you want the signature.
Creation of the signature
- Select your certificate from the list and click "Next".
Certificate selection
- Enter the certificate's password when prompted. Otherwise, click on "Sign".
Password request and confirmation
- Assign a new file name and save the document.
Save signed document
- Below the toolbar, you can see the validity of the signed document.
Signature validity check
