PKI Certificate

Lösung (öffentlich)

A personal certificate makes it possible to sign documents digitally and to sign and send encrypted emails.
Prerequisite The basis for issuing a certificate is an identity check, which is carried out at TU Dresden by authorized persons on campus or centrally by employees of the Service Desk. You can come to the [1]Service Desk during opening hours with a valid ID document. You can view the current status of your identity check in the "Account information" section of your [2]Self-Service Portal profile.
Request in the Self-Service Portal
- Access the certificate management in the self-service portal.
[3]<https://selfservice.tu-dresden.de/services/certificate-management/>
- Select the "Manage user certificates" tab. Certificate management in the self-service portal
- Select "Request certificate". Certificate management
- Enter a password for the certificate and then click on "Request certificate". Requesting the certificate
- Your certificate will be created. Wait until the process is complete. Do not close the browser window. Creation of the certificate
- Once the process has been successfully completed, you can download the certificate by clicking on "Download certificate". Give the downloaded certificate file a meaningful name (e.g. persZert_FirstNameLastName_Date[YYYYMMDD] / persZert_MariaMustermann_20240424.p12) Downloading the certificate
