Keywords

Apple Certificate Email Mail PKI Setup

Solution (public)

- Click the file (PKCS12 format) that contains the key and the certificate.
Screenshot certificate
- Select "login" for keychain and click "Add".
Screenshot macOS: installation window
- When prompted for the certificate password, enter the password and click "OK".
Screenshot macOS: password request
- After the installation you will be redirected to the Keychain Access. There you can see the certificate you just installed under "My Certificates".
