## Keywords

Zoom

## Solution (public)

### Software

You can join a meeting via the desktop, mobile or web app.

### Desktop

The application, which is available for Linux, macOS and Windows, can be downloaded automatically from the [1]Zoom website.

### Mobile

Apps are available for iOS and iPadOS in the [2]App Store and for Android in the [3]Play Store.

### Web

You can also join meetings using Zoom's recommended web browsers Google Chrome, Mozilla Firefox or Microsoft Edge. Organisers must enable the option in their [4]settings to allow participants to join via browser. Not all features are available in the web app, see this [5]help article for a comparison. Also note the [6]browser requirements.
