Recordings BigBlueButton

### Lösung (öffentlich)

Recordings

Please 'Allow room to be recorded' for your own room via the room 'settings'-> 'options' slider.

You can then start th recording in the upper section of the current meeting.

As soon as the meeting ends, the recording is converted and is then available in the room settings under 'Recordings' as a 'Video'. To download it, simply start it and then right-click and select 'Save video as'.
