## Keywords

Eduroam macOS WLAN Einrichtung

## Solution (public)

Hint: If the setup of Eduroam is not successful, please "Change" your WLAN password at: [1]<https://selfservice.tu-dresden.de/passwords/> then wait 15 minutes and start again.

Please note that the username in these instructions must always be entered in the following format: "yourZIHLogin@tu-dresden.de".

-

Download the "eduroam" profile: [2]<https://cat.eduroam.org/?idp=5916>

Screenshot: Profile Download

-

You will get a message that the profile has to be installed via the "System Settings".

Screenshot: System message

-

Open the System Settings and search for Profiles under "Privacy & Security".

Under macOS 15 and newer, please open the System Settings and click on "Device management" under "General"

Screenshot: Profile management (until macOS 14)    Screenshot: Profile management (from macOS 15)

-

There you will find the eduroam profile, install this with a "double click".

Screenshot: Profile installation

-

Click on "Install".

Screenshot: Verify the data

-

Confirm with "Continue".

Screenshot: Confirmation

-

Now enter your "yourZIH-Login@tu-dresden.de" and the "Password" (if you have set a WLAN password, enter it). Then click on "Install".

Screenshot: Access data request

-

Confirm the message again with "Install". The profile has been installed, the Mac automatically connects to "eduroam".
