Eduroam Einrichtung WLAN Wi-Fi Windows Windows10

Lösung (öffentlich)

Hint: If the setup of Eduroam is not successful, please "Change" your WLAN password at: [1]<https://selfservice.tu-dresden.de/passwords/> then wait 15 minutes and start again.

Please note that the username in these instructions must always be entered in the following format: yourZIHLogin@tu-dresden.de

Please download the CAT Tool from the CAT website.
[2]<https://cat.eduroam.org/?idp=5916>. Now open the file to start the installation.

Screenshot: CAT Tool

Please click "Next" during the installation.

Screenshot: CAT Tool installation

Please check now if you have selected the correct tool. There it says for member of Technical University of Dresden and confirm this with "OK".

Screenshot: CAT Installation

Now enter yourZIHlogin@tu-dresden.de and the password twice (if you have set a WLAN password, use this instead). Then confirm with "Install". If you are asked whether you want to install the required certificate, agree by selecting the "Yes" button.

Screenshot: User data

The installation is complete. You can click on "Finish" to close the window. The connection to the WLAN network will be established automatically after a short time.
