## Keywords

E-Mail iPadOS iPhone Zertifikat

## Solution (public)

First, set up your email account on the Apple device ([1]Setup).

-

Open the [2]TU Dresden CA page on your Apple device. Tap on the red marked areas to install the 3 certificates.

DFN-Certificates

-

Now open your "certificate file".

Certificate file

-

Go to the "settings" to install the profile.

Profile Downloaded

-

Now click on "Install" and confirm this again in the next two screens.

Profile installation

-

You will be prompted to enter the password of the certificate, after you have done this click "Next".

Password request

-

Now switch to the mail settings (Settings -> Mail -> Accounts -> TU Dresden Account). There click on "Accounts".

Mail accounts

-

Click on "Advanced Settings".

Account settings

-

At "S/MIME" you have the possibility to change the default behavior for new mails.

S/MIME

- You have successfully set up the certificate.
